TRAVELING THE USA SUMMER DAY CAMP

WESTSIDE FAMILY YMCA

Today's children need more than mere babysitting. They need to be challenged, stimulated, supported and they need to have FUN. Children have skills and talents to develop, energy to use and huge amounts of creativity. At the YMCA Day Camp we help kids grow. We have fun. Y kids make new friends and we help them learn more about themselves and the world around them. Day Camp is an adventure for kids...the fun and freedom of being outdoors, sharing new experiences and learning new skills. Each week offers a new theme and includes activities such as arts & crafts, swimming, skits, singing, environmental activities, group games and special events. Activities will be based on CATCH Kids Club, a Curriculum Approach to Child Health. In addition to the fun and excitement, YMCA Day Camp also provides opportunities for kids to develop self-esteem, learn to work and play together, learn new skills, appreciation for the environment, and develop values that last a lifetime.
